

Dear members

Subsequent to the previous message, please note that the unions have not received any information about the meeting the ED: HR said he would be having with the COVID Staff TT on Monday (31 January).

The final paragraph in the previous message still stands, it was conveyed to management.

For those who have not yet returned, the unions will be informing management that they will be instructing their members not to return to campus until such time as the above concerns have been addressed and issues resolved.

Some members have shared messages received about planning taking place in their colleges / sections. No matter that there may be devolution, this does not mean that management does not have to address the issues and concerns raised within the COVID Staff TT. Devolution will result in varied responses too and it appears, management has not done what is required of them. This may simply be due to a lack of communication, although there has been little to show that it is merely just a communication issue. The unions require the clarity and confirmation directly from management.

The previous message was widely accepted by members, with a few objections. All member responses have been noted.

Regards

UKSU Representative Committee
